REMARKS

By the above amendment, claims 1 and 2, and the abstract of the disclosure have been amended to define the features of the invention more properly, and claim 3 has been amended and claim 4 has been added to delete multiple dependency. The amendments to the claims are not made in view of any prior art, do not narrow the scope of the claims and thus should not give rise to any estoppel.

If there should be any questions, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,  
Sook-kie KIM
